Art Department

(Form page 1)
 Santa Claus is dressed in his bright red suit and Mrs. Santa Claus is wearing a red dress also. The three Brownies have suits of red and green with perky "Brownie" peaked caps.

They all carry some toys to the bag. The first Brownie has a teddy bear, the next has a big white box with a big green bow on top, and the last has a box with a black toy train in it. Mrs. Santa Claus holds a blue and white clown all ready to go.

In the bag can be seen a pretty doll and a giraffe.

The scene when begun was outlined in soap on the outside of the window. Then, with these lines as guides, the actual painting was done on the inside.

The materials used in the paint were tempera paint or poster paint mixed with Bon-Ami; the Bon-Ami was used so that when removing the paint, the Bon-Ami acts as a cleanser.

The work was done by three High School girls. They are, Nancy Swanson, Genevieve Zimmerman and Kay Zimmerman, assisted by Ruth Oberholzer.

Mrs. Beryl Hahn of Manheim, Pa. is the Art Instructor in the Mount Joy Borough Schools.

For Christmas: Popular Bean Bag Game

A BEAN bag game can be built in the home workshop. It will make a wonderful Christmas present for both youngsters and oldsters. Four cloth bags, 4 by 5 inches, will be needed. Denim is excellent for making them. The bags should be three-fourths filled with dry beans.

For the box, cut two pieces of 1 by 3-inch pine into 24-inch lengths and two that are 3 1/2 inches long. Nail them together as illustrated. For the back, nail on a piece of Masonite one-eighth inch tempered hardboard, 24 by 36 inches.

Inside (see drawing) put two sloping pieces of hardboard at one end of the box. Their purpose is to deliver the bean bags to one convenient place. Attach to the front another panel of hardboard, into which scoring holes of four, five and six-inch diameters have been cut out with a scroll saw. Prime and paint. Then add the scoring design with paint of contrasting color.

For play, the box may be leaned against a wall or piece of furniture. The one who tosses the four bags into the highest-score holes wins. Stand back about five paces.

Keep Shoes Under Bed on Movable Rack
 An under-the-bed shoe holder on casters is an excellent means of keeping shoes off the floor and at the same time accessible. The average handyman can put the device together in one evening. As a framework, the home craftsman will need four pieces of 1 by 2-inch lumber, each 30 inches long, plus a center support, also of wood, which will serve also as a divider. Nails, screws or corrugated fasteners may be used in making the framework.
 To the bottom glue and nail a piece of Masonite tempered hardboard, 3/16" thick. This very smooth, hard panel is scuff-resistant and requires no protection except a penetrating sealer. Of course, the entire shoe holder may be primed and painted.
 At one end attach a window or screen handle. Insertion of a caster in the framework at each corner completes the job.
