FIXIN-UP TIPS
 For Farm and Home

Here's Utility Room Workbench
 EVEN though the utility room in a basement home serves many purposes, it has space enough for a sturdy workbench if it is compact and legless like the one shown. It's easy to keep the floor underneath clean.

Two-by-four's, as illustrated, to form the base for the top. For a tough working surface, nail over the planks a piece of Masonite quarter-inch tempered hardboard, the material widely used for bench tops in factories because it "has what it takes."
 By nailing a couple of 1 by 2-inch pieces of lumber across the slanting legs, you create a handy place for short pieces of lumber and hardboard.
 The drawer may be made or purchased. For a smooth, hard bottom that won't splinter, use a piece of Masonite hardboard.

WHY Lancaster County Farm Land should NOT be taken for an AIR BASE

Stop and think what the proposed AIR BASE will do to you, your family and your neighbors

- It will take from 3000 to 6000 acres of fertile, productive farm land out of production.
- It will take farms and homes away from thousands of rural dwellers who work in Lancaster County stores and factories—maybe yours!
- It will make even worse the HOUSING SHORTAGE in Lancaster City & County.
- It will reduce the taxable land which supports our school system in the townships in which the Base is located.
- It will cause further overcrowding of our city and county schools which are already overcrowded.
- It will reduce the productivity and value of farms located within miles of the Air Base—maybe yours!
- It will discourage new industries from locating in Lancaster County.

WHY SHOULD THE AIR FORCE SPEND THE TAXPAYERS' MONEY FOR VALUABLE FARM LAND, AVERAGING FROM \$400 TO \$1200 PER ACRE, WHEN MARGINAL LAND IS AVAILABLE WITHIN LESS THAN 100 MILES WHICH CAN BE BOUGHT FOR LESS THAN 1/10 THAT AMOUNT?
