

OWL LAFFS BASKETBALL

— BY —
A WISE OWL

Guess the \$64 question for discussion this week is whether or not the Ground Hog saw his shadow.

Now just what that has to do with the weather we could never figure out.

Even our noted local weather prognosticator Samuel "Weather & Borough Authority" Miller don't place much confidence in the mar-mot theory.

Now you can take it from me, of all men who should know, Sam is one of them. Why? He was raised among 'em.

During his early days when he was growin' up at Salunga, he spent many, many hours along the banks of the Big Chickies Creek.

If any one knows of a more prolific rendezvous for whistle pigs, than the banks of that stream, plus the adjacent farm fields throuout that locality, he is one up on the writer.

Just to show you how little confidence Sam has in Ground Hogs, he says he had a pet back of the barn. He fed it all year round and every darn time that Mr. Hog got hungry he came out, sat up and whistled—weather or no weather.

Sam says one time along the middle of December, there was quite a heavy snow fall plus a blizzard. His pet Ground Hog was snowed in for fair and much to his surprise that hog dug a tunnel thru the drift, came down to his back door, sat on the saw-buck and whistled—he was hungry.

In our estimation that's "prima facie" evidence that these ground pigs don't even hibernate, much less predict the weather.

When it comes to figgerin' out the weather, just leave it to Sam. He's got that down pretty pat and his theories are all based on science.

Sam bases a lot of his predictions on the moon, but Kate Smith fouls him up quite often—she can't get the darn thing over the mountain and as you all know that has a lot to do with whether or not its going to rain.

But now since we're on the subject, lets review it a bit. If Jupiter and Saturn are near conjunction with either Venus or Mars, one of them is liable to attain the greatest brilliance of the year at most any time.

Now should there be numerous atomic tests out in Nevada when the new test grounds are completed (and they will be if the money don't peter out) that would have a tendency to cause floods throuout the southern part of the United States.

Could even start the water in the Ohio, Mississippi and Missouri rivers to flow north. In that case we would place an iceberg patrol down around Cape Horn.

But one must remember that no Northwest wind never died in debt to a Northeast, therefore no matter how low the temperature, how warm the climate, even how wet the water, I'm still your Grand-mother.

JUNIOR HIGH LEAGUE
Mount Joy's Junior High team continued its string of victories, making it nine in a row. This time it was East Hempfield that took it on the chin 51 to 33. The opposition just couldn't collar Metzler who tallied 25 points.

The winners were so far out in front at the end of the third period 37 to 19, that all the second stringers were given a try. At that they scored 12 points.

In section 2 Lancaster Township has the same league record 9-0 while Ephrata in Section 3 has a 10-1 record.

MOUNT JOY HIGH WON FROM EAST HEMPFIELD

Mount Joy High was four points better than East Hempfield in the game played on Friday evening. The Landisville lads led at halftime 28 to 23 but that big third period put Mount Joy far out front 45 to 32. Klugh, Zimmerman and Metzler led in the scoring, with Kear and Clinger not far behind. Zerphey led the Hempfield team.

In the preliminary game Mount Joy's JV won 27 to 21.

With Elizabethtown making it 8 in a row, they show a shade. In Section 2 Manheim Twp. showed 7 to 1 and Warwick leads section 3 with the same score, 7 wins and one loss. The playoffs should prove humdingers.

Boy Scouts Will

(From page 1)
will demonstrate First Aid: James Mumma, knee bandage; Gary Zellers, hand bandage; Jacob Zellers, ankle bandage; Jerry Buchenauer, head bandage; Sam Harnish, sling bandage and Kenneth Wittle, chest and foot bandage.

The Scoutmasters are proud to report that there were seven new boys came to the meeting Monday, February 4. They now have three complete patrols and the boys are doing a very good job in scouting.

During scout week the scouts are going to the United Brethren Church in Florin, Sunday, Feb. 10 at 10:30 A. M. Meet at the scout house at 10:15. All fathers that can, are welcome to come, as your car may be needed.

The scouts are also going to demonstrate some of their skills at the annual banquet that the Rotarians hold for the scouts each year. Everyone is invited to attend the Boy Scout open house this week.

THE LOW DOWN Those In Service

HICKORY GROVE

There is much confusion in the land—also there is much suspicion—likewise much doubt—also lack of confidence as to just what is planned for us, us Main Street citizens that is. We have a war on our hands—we have dictators in tax exempt cars, travelling up and down and across the landscape putting props under prices—pulling the foundations from our established customs—whittlin' down our freedom to keep what we earn—lessening our right to work for what guy, where, or for how much. We did not figure we would have all this jumble and lack of contentment when we swarmed down to the votin' place a dozen years ago and voted a big "you bet" to the idea that we would be rolling in milk and honey if we just turned over the whole shebang to the wizards.

Now look at us—Utopia, where art thou? It was a mirage, like the palms and dates on the Sahara, just beyond the grasp. Now, I say this. Like the sinner who kneals and confesses—let every sucker shake off his pride and confess his past sucekrishness—admit he was not as smart as he thought. Then roll up the sleeves and start clearing out the rubbish—rubbish in Government, that is. So long and good luck folks.

Yours with the low down,
JIMMIE

Dear Committee Members:
This is a belated but not a forgotten thank you, for the very fine Christmas gift you sent to me. I want you to know that I appreciated the gesture and the sincere thoughtfulness behind it. I received the box of Bachman's Chocolate while I was still stationed in Japan. Knowing that I was soon to be sent to Korea I saved the box. I am glad I did because they sure do come in handy for an evening snack.
As ever,
Robert E. Germer

Dear Friends,
I would like to thank you for the opportunity to thank you for the box of chocolate. Also the paper brought me up to date on all local news.

Having moved into Mount Joy just prior to my induction into the Army, I am not acquainted with too many of my neighbors. Your kind services have helped bring you closer to me.
Hoping to be able to meet you personally, I remain,
Sincerely yours,
Richard D. Schwartz

GROUNDHOG DID NOT SEE HIS SHADOW AROUND HERE

These of you who believe in the old Groundhog theory, can rest assured that he did not see his shadow at 12 m. Saturday. However, there are some sections where they claim the sun did shine a "short time."
Here's our prediction — during the coming six weeks we're going to have weather, but you must wait and see what kind.
