

OWL LAFFS

A WISE OWL

Our Office Lady, received a telephone call the other day. A proud parent called to report the birth of twins.

Mary couldn't quite understand him and she said: "Will you repeat that please."

He said: "Not if I can help it."

If there is any individual we know who is kind to animals it's John Day, of Trailer Village, at Florin. He recently built an air conditioned dog kennel. It even has a screen door.

Of all the unusual things that happen, particularly to fishermen here's one has them all topped. We wouldn't swear to it but can take the man's word. This happened to our Boro Supervisor and veteran fisherman, Henry Smeltzer. Here's his story:

Of all the rain we have had for weeks, Jim has had ample time and opportunity to go fishing. As most fishermen know, there is no better time to fish than after a shower.

One day last week Jim decided he'd try his luck fishing so he went down to the banks of the Little Chickies (formerly Snyder's woods) decided he'd dig a few worms and start feeding the fish.

There's an old and true adage, the dryer the ground, the deeper the worms and the wetter the ground the higher the worms. Well Jim dug high and low but no worms. Finally much disgusted, he heard a chuckle overhead, looked up, and there were oodles of worms crawling around on the trees. Its been to darn wet for 'em so they climbed to safety.

But what Jim can't understand is, how those little earth worms climbed those big oak trees.

To make matters worse, Elwood Martin, the milk peddler, who has also had a lot of experience with fish and worms, declares that up in Perry County the worms don't climb trees during wet spells, they just go up the mountain sides.

Elwood says he saw big flocks of 'em coming down the mountain sides when the weather gets dryer. That's when he gathers them.

If a man is too lazy to think for himself he should get married.

A rural family on Marietta R. D. had city folks for Sunday company. During the dinner conversation the farmer complained: "My pigs are sick and I don't know what to do." "You should smoke them," his visitor said. "Smoke them," the farmer reported. "Sure, my grandfather told me that was the way he cured all his hogs," the visitor explained.

Woman's Intuition: A suspicion that turned out to be true.

Then there's the language of flowers. A red rose says, I love you; A white one, You're heavenly; Yellow, I am jealous; Carnations, too, speak up Pink, I'll never forget you; Red, I'm carrying a torch for you." And the orchid says, "This escort is loaded."

Dumb Dora's boy friend wanted to take a trip on a boat that would fit his personality so they put him on a tramp steamer.

Stop and think. Use your bean; To stay in the pink. Watch the red and green.

After listening to the recruiting sergeant tell the advantages of a three-year enlistment in Alaska the skeptical recruit asked: "Isn't that the place where the nights and the days are six months long?" Sure, said the Sarge, "so when you come right down to it you will only be there for three days and nights."

Miss Mildred Wilson is the team's coach.

Carl Rohm Won County Marble Championship

Carl Rohm, seventh grade student in the Borough school won the Lancaster County Marble Championship in the VFW 9th District tournament held in Coatesville on Saturday, May 24th.

Rohm representing Post 5752 of Mt. Joy lost out to the entry from Coatesville representing Chester County for the District State Championship.

The match was forced indoors by the steady downpour of rain and this proved quite a handicap for Rohm.

Rohm was accompanied to the tourney by Ralph Rice, Charles Mateer and Shearer.

LOCAL AUTO SALESMAN QUALIFIES FOR MEMBERSHIP

Two salesmen for Newcomer Motors, Inc., Mount Joy, have qualified for membership in the Chevrolet Motor Division's Car Club, it was announced today by Robert G. Lloyd, sales promotion manager of the Harrisburg Zone.

They are Earl B. Myers, a member of the 100-Car Club, and John G. Gams, a member of the 50-Car Club.

The qualification of these men was based on their selling attainment last year. Chevrolet salesmen compete for membership each year in a nation-wide sales program. Each member is awarded a lapel pin the first year and a diamond is added to it for each succeeding year.

"Chevrolet congratulates these salesmen for their outstanding sales achievements in 1951," said Mr. Lloyd. "Once again, through their splendid efforts, Chevrolet retained its leadership in the automotive field."

TENNIS GRADERS WON

The Mount Joy grade school tennis team came through with a 5-2 victory over Lititz 7th and 8th graders on the local courts. The winners took three of the five singles matches and swept the doubles.

THREE FOXES ON ONE SHOT

While a State Policeman at Lancaster was practicing pistol shooting on a range near the city, he saw and shot a gray fox. It was a vixen, carrying two unborn young.

THE LOW DOWN from HICKORY GROVE

For years now we been making laws about "rivers"—how to control 'em. We been pouring in dinero by the train full—but Old Man River, to show us up as up-starts and not knowing much about what we are up to, pays no heed, and floods as he sees fit—if not more so.

You take a river and put a dam across it—and if it rains sometime you will catch yourself some rain-water. And if it rains a whale of a lot—and if the dam is empty to start with—the dam will prevent so much water from flooding down stream. Putting dinero into dams such as this will pay dividends, but we don't do it that way. We pass laws for dams—and donate big money—but the smart boys tell us we might as well put in a dynamo or two and make some power on the side, Congress, not knowing a kilowatt from the side of a barn, says that is "jake" with us—go to it, it says. But the trick to the get-up is that you can't make power unless the dam is full and the water can flow over and turn the water wheels.

So, with the dams full of water and the dynamos running full tilt and making kilowatts, what happens when the Spring freshets come along. Yep, that's it, Old Man River doesn't even hesitate. We been getting it in the neck—and how—with our "smart alac" dam antics.

Yours with the low down. JIMMIE
