Renew Worn-Out Wagon Bed!
YOU DON'T have to get along with a rough and splintery wagon bed any longer. Here are the easy directions for covering the old surface with a material that is inexpensive, extremely smooth, moisture-resistant and very durable.

With wagon sides removed, place panels of Masonite 1/4" tempered hard board over the entire bed. Fasten it with

with screws. Necessary openings may be made with a drill and keyhole saw. The wagon sides and ends may be lined in the same way.

The smooth surface of the tempered hardboard makes shoveling a cleaner and easier task.

Farm wagon beds aren't the only spots for this versatile material. For working surfaces in the shop, barn or milk house, tempered hardboard is the answer. It also is widely used in dry wall construction.
