Terry
 (From page 1)
 Rice Treatment Latest report on Terry, he is undergoing the latest scientific rice treatment. Living in what is called 'the rice house' (at \$70 per month). The country's finest specialists for this particular disease is located at the University hospital, but no State Aid or charity is given at this hospital. All Terry's medical treatments require "cash". His parents, Mr. and Mrs. Elwood Young, 176 Manheim St., quietly met the expenses until their income was depleted and a sympathetic friend heard of their plight. Since that time local organizations have contributed generously. Coin jars have been placed in factories and all business establishments. With interest growing daily for Terry perhaps, and we hope, enough donations will come forth to make a worthwhile fund to keep this child's necessary treatment going to bring him back to health. Terry can come back—after months of specialized treatments. "We're Pulling For Terry" fund is something Mount Joy and vicinity can be proud of.
