**Clerk Carrier**

(From Page 1)

though Mail Box Improvement Week is past.

The Clerk Carrier examination is still open at this office. When sufficient applicants are known, then the examination will be given. At the present time there is no opening in the office. However only names from an eligible list will be used should an opening occur in the office. To get names on an eligible list there must be an examination. So if you are interested in taking this examination, and thereby have your name placed on an eligible list for some future time, then you should contact the Postmaster at the Mount Joy Post Office for full particulars.

Should your name be on the list, and an opening in the office occurs, you may be asked if you wish to take the job, but you are not compelled to take it. Why not get the particulars from the Postmaster NOW. The time may come when there would be an opening with a bright future in it, but only persons will be eligible for the job, whose names appear on the eligible list.

See your postmaster at Mt. Joy. Get the full particulars.

School system, sewerage system and police protection that would be afforded by a jointure. If this is not done now, it never should be done, stated Attorney Newcomer, since all the present conditions are favorable for such a project. He said that a course of action for such a plan should be: 1—hire an outside government expert to make a complete survey of the project in Mount Joy, Florin, Mount Joy Township, Donegal Township. 2—check our community interest of all involved by means of the survey.

Upon a favorable decision the Attorney suggested what must be done. He stated a committee should be formed to ascertain the boundary of Florin; hire a professional survey or a lawyer to make the boundary authentic and legal. Secure signatures of a majority of landowners involved and submit them to the Mount Joy borough council for approval and then file a copy in the County Court House.

In closing, Attorney Newcomer stressed that a growing and thriving community must grow industrially if it wants to compete with other surrounding communities.
