"WANT 4 GOOD REASONS FOR INSTALLING AUTOMATIC ELECTRIC POULTRY FEEDERS?" ASKS NEVIN GARMAN, Northumberland County Poultryman.

He answers his own question with facts, based on experience, that will interest any poultryman looking for better, more efficient ways to run his poultry operation.

- He lists them this way:
- "Saves time and labor"
 - "Feed stays fresh and activated all the time"
 - "Every bird can get feed anytime, night or day"
 - "Low-cost operation"

These are the facts as Mr. Garman, of Sunbury, R.D. #1, has found them. Extensive studies have also shown that hens lay just as many eggs when fed automatically as when hand-fed... and they waste far less feed!

Investigate electric automatic poultry feeding today... have your PP&L Farm Representative explain the ease of installation as soon as possible. Try it... and you'll find you've time to handle a larger flock!
