Council Rejects All Bids For Street Repairing

When the Mount Joy Borough council failed to give specifications when they advertised for bids for repairing the streets, the borough fathers caused quite a bit of confusion at a special meeting held Monday night.

All bids were rejected and the three contractors who had placed bids were left with the possibility of doing the work over again.

The councilmen bemoaned the fact that the quotations were so far out of line that it would be necessary to advertise for bids again, and, in all probability the proper specifications will be given.

The three contractors who had placed bids were: Roy Young, Lancaster RD., who had placed his bid for repairs at \$3,937.50, Heisey Brothers, of Rheems \$6,952.00 and Rosser Construction Company, Mt. Joy, in Rosser's bid he stated they would place a 6-inch stone base, furnish all labor necessary to excavate at \$1.10 a square yard, also place a two inch bituminous surface at seventy cents a square yard and cut a ditch grade to a neat line at twenty cents a linear foot.
