The office of the treasurer of the United States is essentially a banking facility for the government, and is required under law to service practically the entire federal establishment, being particularly charged with the receipt, disbursement, and accounting for public moneys; the custody, issue, and redemption of United States paper currency and coin; the issue and payment of checks; the safekeeping of securities deposited as collateral and otherwise; and the payment of principal and interest on public debt obligations.

**Sulphur Deposits**

Men drilling for oil along the Gulf Coast struck sulphur quite unexpectedly. Only a score or so of the region's many oil-yielding salt-domes have so far been found to hold the yellow mineral. The few, however, have proved enormously rich, one providing twelve million tons. Port Sulphur and Newgulf are lively model towns that Gulf Coast sulphur has built. The most recently discovered big sulphur deposit is at the tip of the Mississippi's delta.

**Draft Appeal**

The national selective service appeal board is located at national headquarters and consists of three civilian members appointed by the President. The President has authorized the national board to finally determine, upon appeal or upon its own motion, all claims or questions with respect to the inclusion of registrants for, or their exemption or deferment from, training and service. In carrying out its functions the national board is independent of the director of selective service.

**Russia's Neighbor**

Alaska's strategic significance lies in its proximity to Greater Russia, offering a convenient natural doorway to the North American continent. At one point near the Diomed Islands, United States territory and Siberia are less than a mile apart. During World War II, the Japanese got a foothold in the Aleutian Islands and held it until 1943.

**Sewing Basket**

Have you any old straw hats around? You can make a nice sewing basket by using the crowns of two of them, one for the bottom and one for the lid. Bind rough edges with material and sew lid on. Then give the entire basket one or two coats of fresh shellac and line it with some extra silk, velvet or satin you may have around.

**Got Rid of Them**

In Okmulgee, Okla., five-year-old Tony Whitley explained to his bootlegging father why he told raiding policemen where the moonshine was hidden: "Well, Daddy, they've been here so many times and never found anything and I thought if they found something they wouldn't come back."

**Helicopter Training**

All army aviators are eligible for helicopter training. To qualify as helicopter pilots, they receive five weeks of technical training at San Marcos air force base, San Marcos, Tex., and five weeks of practical training at the army's artillery center at Fort Sill, Okla.

**Buy Big Refrigerator**

A rule of thumb about refrigerator size is six cubic feet for two people with an additional cubic foot for each additional person. Michigan State College specialists point out, however, that a refrigerator is soon outgrown and it would be better to buy a large one in the first place.

**Pocahontas Weds**

The wedding of Pocahontas and John Rolfe took place at Jamestown, April 5, 1614. The bride was described as wearing a tunic of white muslin, and a fillet encircling her head held the gorgeous-colored plumage of birds.

**Woman in Moon**

The Rev. Leon Rivard, St. Adolphe, Canada, priest and amateur astronomer: "The Man in the Moon is a woman. Her figure measures 860 miles from head to toe and can be seen lying between two mountain chains."

**Baby-Bottle Container**

A pop-bottle carrier makes a handy baby-bottle container. Six bottles can be carried to the refrigerator at once, and the carton is easy to move so you can reach behind bottles.

**Save Time**

A small sewing basket or box kept in the kitchen will save much time and trouble when those inevitable last-minute calls come for buttons or snaps just before the youngsters set off to school.

**Protect That Picture**

If you wish to frame photographic prints without glass, a thin coat of fresh, white shellac on top of the photograph will prolong the life and looks of the print.

**Seward's Folly**

Alaska was bought from Russia in 1867 by Secretary of State William Seward and quickly became known as his "Folly," his "Icebox," "Icebergia" and "Walrusia."

**Indian Affairs**

The bureau of Indian affairs was created in the war department in 1824 and transferred to the department of the interior at the time of its establishment in 1849.

Stimulate your business by advertising in the Bulletin.

**EDGED WITH CROCHETED LACE**—If this month's shopping list includes gifts for wedding, anniversaries, birthdays or graduations, you can keep your budget intact by crocheting. That handmade touch is always appreciated. Purchase several simple cotton or linen handkerchiefs and give them a luxurious look by adding delicate edgings. For directions for crocheting these three edgings, send a stamped, self-addressed envelope to the Needlework Dept. of this paper and request Leaflet No. 5-190.

**Film On Navajos Will Feature Church Service**

A film in color and sound, "The Call of the Navajo", portraying the present day life and conditions among the Navajo Indians and the work of Christian Missionaries to the Navajos, will be shown Sunday, June 21st at 7:30, P. M. at the Congregational Mennonite Church, 258 W. Market St., Marietta. A cordial welcome is extended to all.

**MRS. ETTA BENNETT OBSERVED 80th BIRTHDAY**

Mrs. Etta Bennett, East Main Street, this boro, observed her eightieth birthday. She received many cards and gifts as well as a telephone call from her son, Thomas, who lives in Portland, Oregon. She also is step-mother of Charles Bennett, this boro, and grandmother of Postmaster Charles Bennett, Jr.

**CUTTING PIE**  
 When cutting a frosted lemon pie, use a knife that has been dipped in cold water; the meringue then holds its shape.
