AGREEMENT ON SEWER NEED

From remarks we have heard in the communities of Mount Joy and Florin the majority of residents seem to agree on the need for an adequate sewer system. The question of whether or not Florin folks would like to become a part of Mount Joy borough can only be determined in an election.

However, the sever problem is one that should be dealt with as promptly as possible with a view as to how it can be solved most. economically. We have heard some in Florin talk along the lines of putting in their own sewer plan. Without pretending to know all of the its and ands of this proposition, we believe that full consideration should be given to costs, and the job should be undertaken with a view to keeping the individual tax burden as low as possible.

Logically one sewerage treatment plant for both communities should be the most econom-If surveys now being undertaken should show that the majority of Florin's populace opposes full and complete jointure with Mount loy, then we feel that the sewerage problem should be approached with a view to creation of a sewer district authority including as large an area as is practical.

The desire of many folks in Florin to maintain their independence is understandable. However, there are also many advantages to be considered in favor of full jointure. The matter should be given serious thought and

decided at the ballot box. But the chief point to be considered at this time is this: Both communities need sewers. The issue of full and complete jointure should not be allawed to stand in the way. The prime concern of both communities should be to get the sewers in whatever way is most accept-

Much of the future progress of this area lies in the installation of good sewers. If all of us set our sights in that direction, we will night, the young child of my hostess looked have them.

Just this note of warning: At the risk of that will serve any conceivable growth for is the use of having papa hanging around?" many years ahead. No doubt, they are far ahead on this thinking and are doing just that. But it would be a pity to find another sewer problem in five or 10 or 25 years, when proper sie Schroll ground hog hunting, seeing a spot planning now could alleviate much of the where Donnie thought would be a good place need in future years ..

TAKE IT EASY

Farm Photographs (From page 1)

"absentee" owner.

The following week a picture of another farm will be printed and after identification this farm occupant will also receive the leather-bound photo of the farm and the 22 gift certificates. The feature will continue for 30 weeks.

This should prove an interesting and intriguing contest, not only for those living on the farms pictured, but for everyone else in the area also If you know who lives on the farm pictured, you may do him a service by calling him to tell him about the facts.

But remember that an aerial photo, even of the farm next to you may prove to be quite puzling, as things look different from the air than they do from the ground.
