Mr. and Mrs. Carl D. Peiffer, 112 W. Main Street, Mount Joy, a boy, at the General Hospital, Monday.

HUMANS LOVE DANGER

The thinner the ice, the more anxious is everyone to see whether it will bear.

MEN AND WOMEN

Men mourn for what they have lost, women for what they ain't got.

Valentine's Day is tame now, compared to what it used to be. Nowadays young people exchange bits of paper or maybe work up to candy and flowers, but in medieval days the idea was to kiss the first person you saw who appealed to you on that day, thus making him or her your special sweetheart for the year.

Better Living

There is something about rubber that goes with better living. The better we live—the more rubber we use. Perhaps it has something to do with the properties of rubber—elastic, springy, compressible, soft—that make it play an important part in our ever higher and more comfortable standard of living.

Cool Off the Young

When the small fry are just too hot, pat their moist bodies with dusting powder applied with a huge puff. The six-year-olds—and up—are more willing to take a bath if they are permitted to "play" with the puff themselves when they pop out of the tub.

Heavily Populated

Now, with some 210,000 inhabitants, Barbados has 1,250 persons to the square mile, and is second only to Bermuda in the Western Hemisphere for density of population. The growth started with the importation of slaves from Africa to work the early sugar plantations.

Conservative But Smart

Those who wear a woman's size and style and like to dress conservatively though smartly will like the flattering print dresses being shown in both navy and gray with lavish touches of sparkling white. One and two-piece models are available.

Spring Surprise

Surprising fabric combinations have been forecast in the fashion world and the results now being seen are interesting, indeed! Take, for example, the nylon batiste blouse which has linen at the collar, pockets and cuffs.

Falling Cakes

If your cakes fall perhaps you are not using the right sized pan. When pans are too small the cake batter will run over the edges and burn. When the pans are too large the cake tends to be thin and overbaked.

Tibet Invaded

Northward in Tibet, the invaders from Red China appeared to be entrenched. Peiping announced that a 17-point signed agreement amounted to a "peaceful liberation" of Tibet's three million inhabitants.

Population: 4

Tired of the big city? Then why not move to Doring Harbor Village in eastern Long Island? The small est incorporated place in New York State, the village has a population of only four.

"Long" Tons

The 222 million "long" tons of coal mined in Great Britain's socialized mines in 1951 equal 248 million net tons as measured in the U.S.—or less than half of this nation's output for 1951.

Slip Covers

Closely woven material is better for slip covers because it gives greater protection against dust, holds its shape better, wears longer and tailors more easily.

Sandwich Filling

Sliced corned beef, thinly shredded green cabbage, and Russian dressing make a flavorful filling for a rye bread sandwich to pack into a lunchbox.

Cleaning Fireplaces

Brick fireplaces that have become smoked can be cleaned with a tri-sodium solution. Extra stubborn stains will respond to steel wool and scouring powder.

Removing Stain

When you sponge a stain from clothing be sure to work from the underside to prevent forcing the stain into the fabric.

Lignite

The three million tons of lignite consumed annually in this country are expected to double within a few years.

Early Air Picture

One of the earliest aerial photographs ever made was taken from a balloon in 1869 and called "Boston as the Eagle and Wild Goose See It."

Coal Reserves

America's coal reserves are sufficient to last for centuries although consumption will increase steadily in the years ahead.

Earliest Hymn Book

What is the earliest hymn book in existence? The earliest hymn book in continual use for a period of 3,000 years, is the Book of Psalms.

He May Be Right

"Tolerance is the suspicion that the other fellow might be right after all."—Anon

Novel Salad

For a novel salad, combine crisp head lettuce with salad dressing sweetened with honey.

Be Coy

"It is quite silly that a girl shouldn't let a man see that she is attracted by him."—E. F. Benson
