**SAVE THOSE STEPS!**

Why waste thousands and thousands of steps... and hundreds of valuable hours... every day, every week, winter and summer, year in and year out... going from dairy barn to kitchen after water? Instead, heat water... all you need... right in the dairy barn or milk house with an electric water heater? You'll save those steps... and those hours... for other profit-increasing jobs, naturally. But it will give you these other benefits, too, as thousands of your neighboring dairymen have already proved:

- Gives you all the hot water you need without work.
- Operates more cheaply than old-fashioned methods.
- Cleaner than any other method.
- Safer—no flame, no fumes, no odors
- Water heated to exact temperature you want.
- A-1 convenience.

So... see about it today! Either your local PP&L Farm Representative or farm equipment dealer will gladly give you all the facts on how electric dairy water heating can help you!
