

OWL LAFFS

BY A WISE OWL

I called an uptown lady this morning on important business. When I said: "I want to see you in the worst possible way." She replied: "Come around before breakfast."

Somebody called up John Fuller last week and asked him if Harry Darrenkamp was Prince Albert in a can. John immediately answered: "He sure does." And the fellow yelled: "Well, tell him to leave him out right away, before he smothers." — "I believe Geo. Reigle had something to do with that, John."

One of the fellows told me at the barber shop that on Saturday morning his neighbor slipped on his wife's robe and went downstairs to answer the doorbell. As he opened the door the ice man kissed him. After giving due thought to this strange occurrence, he came to the conclusion that the ice man's wife must have a similar robe. — "Whatta man!"

Bill Shaeffer said "One reason why romance lasted longer in the old days was that the bride looked much the same after washing her face."

A Florin youth took his first check to the bank. The cashier asked him to endorse it, so he took up a pen and wrote on the back "I heartily endorse this check."

One of our reporters called at a downtown home yesterday. When the small boy opened the door she asked: "Is your mother engaged?" The boy thought a minute and then answered: "I think she's married."

They say if you don't drink, smoke, or run around with women, you'll live longer. Actually, it only seems longer.

The other evening around 5 o'clock when the siren blew Bill Fackler ran outside, and seeing a red reflection in the western sky, decided to beat the engines and head right for the fire instead of going to the fire house. After he drove awhile, unable to locate the

BIRTHS

Mr. and Mrs. Mark Layman of Denbigh, Va., announce the birth of twin sons February 1, 1954 in the Riverside Hospital, Newport News. Mrs. Layman is the former Ruth Mumma, Florin, Pa.

Mr. and Mrs. Raymond F. Gruber, Mt. Joy R2, announced the birth of a son Monday at the Lancaster General Hospital.

Mr. and Mrs. Wayne Stauffer, Mount Joy R1 announce the birth of a daughter Wednesday at the Columbia Hospital.

blaze, he realized the red reflection was the setting sun. — The fire was actually near Hossler's Church northeast of town.

A noisy card game was going on in a hotel. A guest in an adjoining room couldn't sleep because of the racket. He pounded with his shoe on the wall. The card players paid no attention. After a lot more wall-pounding, one poker hound cried: "This is a heck of a time of night to be hanging up pictures!"

Overheard as I entered the home of a New Haven St. family.

"Melvin, Melvin . . ."  
"What, Ma?"  
"Are you spitting in the fish bowl?"

"No, Ma, but I'm coming very close."

Philosopher Enck says: "A wise woman is one who makes her husband feel as though he's head at the house when actually he's only chairman of the entertainment committee."

Did you know that the three balls in front of pawnshops mean that two to one you won't get it back.

I saw this sign on a Harrisburg coffee bar:  
"If you are one of those who douse cigarets in coffee cups, let the waitress know. She'll serve you coffee in an ash tray."

Don't forget to send me that ugly Valentine. Someone's been slipping up the past few years and I don't get as many. Makes me feel as though I'm slipping.

May I remind you that the best way to keep up with the Joneses is to take it easy for a while and in a few years you'll meet them coming back.

The very fact that America's telephone industry has just recently installed the 50,000,000 telephone only provides a spur for continued improvement and expansion. We join with the 5300 other Independent Telephone companies and the Bell Telephone System in observing this communication milestone. It gives America one telephone for every 3 people—compared to one for every 68 in the rest of the world.

SWINE RAISERS GET DISEASE WARNING

Pennsylvania swine raisers should be on the alert against possible occurrence of atrophic rhinitis in their herds, says Dr. Howard Dunne, professor of veterinary science at the Penna State University.

The disease is increasing in 14 states, he says, and Pennsylvania may be the next to be seriously affected. Atrophic rhinitis is characterized by its slow spread and disfiguration of the snout, and results in loss of weight, poor gains, and poor sales value.

With vesicular exanthema on the decrease, Pennsylvania is one of only seven states having infected herds at this time. Hog

also is declining, but remains the number one killer of swine, Dr. Dunne says. With the development of rabbit-adapted vaccines as an important part of its control, hog cholera eradication may be just around the corner.

One of the first experiments to be started at the new Animal Disease Research Laboratory at the University, occupied at the beginning of January, concerns diseases of swine, states Dr. Dunne. If swine raisers lend their support to their research, much can be accomplished to solve the disease problems now affecting the swine industry in Pennsylvania.
