you can't buy this new power in any other low-price car!

only the new '54 Plymouth offers you...

new PowerFlite transmission with new PowerFlow engine

PowerFlite, combined with the great new 110-horsepower PowerFlow engine, gives you flashing acceleration, with no lurch or lag. PowerFlite is the low-price field's newest, smoothest fully automatic no-clutch transmission.

new Power Brakes

Give you quick, straight-line stops with only half the usual pedal pressure! For smooth, predictable stops, Plymouth's Safe-Guard brakes have two hydraulic cylinders in each front wheel, where competing cars have only one.

full-time Power Steering

Works every minute you drive, not just occasionally. Plymouth's Power Steering eliminates "wheel fight," gives you safe, precise control on rough, bumpy roads, and lets you park with just one-fifth of the normal effort!

You'll find the newest power advances in the low-price field only in the new 1954 Plymouth! And that's not all! You'll find comfort, economy and safety features that you can't buy in any other low-price car. We'd like to arrange a demonstration drive for you today—just drop in or phone.
