Success Story

--- AND A GOOD TIP FOR YOU

WHEN it comes to sales, every car maker aspires to be up at the top of his price class. Which is only natural. Popularity like that means success. We know, because for years Buick has held such an envied position—the unquestioned sales leader in its class. And with good reasons in styling, room, power, value. But today, folks like you have pushed Buick success even beyond such bounds. Today, the top sales standings of a full generation have been changed. Today, latest sales figures for the first four months of 1954 reveal this phenomenal fact: *In total national volume, regardless of price class, Buick is outselling all cars in America except two of the so-called "low-price three."* That's a tip too good to pass up. That's the tip-off that Buick must have the hottest styling of the times and the sweetest performance of the year. More important, that's the tip-off that Buick prices are well within the reach of more and more people — and that such prices buy a lot more automobile per dollar. So why not look into the tomorrow-styled Buick that puts you so far ahead today? Come in, or phone us this week for a demonstration. Then you can judge for yourself that Buick really is the beautiful buy—by far.
