WHAT PRICE SPEED?

Speed—excessive, reckless speed is the greatest killer stalking the Nation's highways today.
In one out of every two driver accidents resulting in deaths and injuries, speed is directly responsible for this carnage on the highways. Other lethal causes, such as cutting in and out, passing on curves and hills, driving off the roadway, are indirectly the result of quick bursts of speed.
And the speed death toll is climbing! Faster roads, super-powered cars urge drivers beyond their human limitations to a quicker and more frequent rendezvous with Death.
Rural highway fatalities due mainly to speed soared from 22,000 in 1949 to 28,200 in 1952 and over 31,000 in 1953. Those are the dead—and for every death count fifty injured, maimed, crippled for life.
Is this the price you and others are ready to pay for the momentary thrill and the ever-present danger of death from speed? It takes only a split second to change speed exhilaration into speed tragedy.
The decision is in your hands—be sane, be sensible, slow down and live!

SLOW-DOWN-LIVES ARE IN YOUR HANDS!
