Cover your floors  
with Beauty  
for less than \$25 a room

No need to ask your budget which room gets the new rug. At our tiny prices you can treat any room... every room in your home... to a bright new Deltax rug.

Come see our wide, wonderful variety of patterns, right for any decorative scheme. Our Deltax rugs are as practical as they are good-looking; no nap to catch and hold dust and lint. Built for hard wear, too—the woven-through patterns are reversible—(two usable sides for double life).

**One Billion Tons**  
With growing population, increasing production, and expanding needs for electric power expected to double America's energy requirements by 1975, coal consumption may reach a billion tons annually—or about twice as much as is used today.

**First Line of Defense**  
"So long as any number among us remains indifferent to the... rights of our fellow-citizens, or becomes emotionally unbalanced to the point of overriding such rights, they are striking not at our first, but at our last line of defense."—Francis Biddle.

**Nubby Woolens**  
Nubby textured woolens are appearing on the fashion scene, especially in the tight hugging toppers. Sleeves are very interesting with their deep armholes, and so are the collars which are gently rounded and curved.

**Tailored Look**  
Pure silk shantung will give you that neat, tailored look so desired during spring and summer. Have yourself a suit or tailored dress in it in one of the choice colors for the season, medium or navy blue or gray.

**Peppermint**  
Serve sticky peppermint or lemon candy with cups of steaming tea. Guests stir, sweeten, and flavor their tea all at once—and no spoons to wash. Peppermint or molasses sticks are wonderful with hot cocoa, too.

**No Weeds**  
On populous Barbados, West Indies sugar island, land has been so intensively cultivated for so many years that weed seeds are virtually non-existent except as they arrive from lands outside.

**Pressing Linens**  
Keep a few ice cubes handy when you press freshly laundered cottons or linens. You can prevent wrinkles by easing a cube over dried-out spots to re-dampen them during the ironing.

When in need of Printing. (any-  
thing) kindly remember the Bulletin

There is no better way to boost your business than by local newspaper advertising.

Did you know that the name of Yucatan, the Mexican state, literally means, "Hub?" or more politely, "What did you say?" The name came into being when the Spanish explorers asked the natives the name of their land. The puzzled Indians responded with their word for, "I don't understand you." The Spanish took this to be the name of the country, and it stuck.

**Yemen**  
Hodeida on the Red Sea is the principal port of the small Arab kingdom of Yemen. Ocean-going ships unload several miles off Hodeida into small dhows which then sail into chest-deep waters where burly porters carry their cargoes to shore on head and shoulders.

**Sales Cycles**  
Automobile sales figures from 1893, when the Durayea Brothers' first gasoline driven vehicle appeared, to 1950, show a definite six-year cycle. Of the 13 highs and lows indicated all but one have come exactly on time or within a year and a half of perfect timing.

**Inflation**  
Heavy government spending for military supplies tends to push up prices, because it adds to the income of businesses and individuals without increasing the supply of civilian goods. In the scramble for scarce goods, prices are likely to go up.

**Goes Over Overshoes**  
Faced with the problem of finding an inexpensive way to give overshoes a gleaming surface, industrial finish engineers have developed a special elastic, durable finish which is baked on in the same operation that cures the rubber.

**Assorting Rainwear**  
A good trick for keeping rubbers and rainwear from getting separated or mislaid is to give your child brightly painted clothespins with initials on them so he can clip galoshes in pairs, and rain hat to raincoat.

**Cherry Trees**  
There are some 60 varieties of oriental flowering cherry trees established in the United States and Europe. At least half of them may be seen in the vicinity of Washington, D.C.

**Drying Chenille**  
Pick a windy day to launder chenille spreads and they'll dry to a soft fluff with no brushing needed. As the spread dries, the wind rubs the tufts together so there's no chance of matting.

**Dry Niagara**  
Once the great Niagara Falls ran dry. This unusual event occurred March 31, 1848, and was caused by a giant pile-up of ice floes resulting from the spring thaw. They dammed the river for a day.

**Bering's Discovery**  
On a foggy day in July, 1728, the dour Danish explorer Vitus Bering, whose name was to be given to a sea and a strait, sailed through the narrow ocean passage between Siberia and Alaska.

**Into Three Oceans**  
Water from the slopes of Triple Divide Peak, 8,000 feet high, in Glacier National Park, Montana, flows into three oceans—the Pacific, Arctic and Atlantic.

**To Save Searching**  
A place for everything and everything in its place is possible if you will build and label special cabinets to hold the equipment used in each family activity.

**Protecting Tree**  
Having trouble with a branch of a favorite tree? If it must be cut, apply a coat of fresh shellac to the sawed off portion of the standing tree before applying the dressing.

**Vatican Uniforms**  
The Vatican City's glittering halberdiers, the Swiss Guards, wear 16th century uniforms last altered by Michelangelo.

**Coal to Britain**  
The British government has chartered 100 ships with a view to importing more than a million tons of coal from the U.S.

**Mom Counts**  
Dr. E. Jalavisto, University of Helsinki: "Pick a long-lived mother if you want to live long. Pop's life span doesn't count as much."
