Don't argue with this baby!

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR* trials—and took a licking!

Meet the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today. Here's what happened—

Daytona Beach, NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one! But wait!—this is just the beginning!

Daytona Beach, NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement. Chevrolet captured 3 of the first 5 places!

Columbia, S. C. NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet finished first!

Daytona Beach, NASCAR Late Model Event. Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet . . . and live in a land of going-aways where you win all the arguments! Soon, maybe?
