

**RED FLANNEL**  
UNDERWEAR DOES NOT  
KEEP THE WEARER  
WARMER THAN WHITE  
FLANNEL

And We Can Prove It!

SEE PROOF BELOW

It's true. Station-to-station long distance service is so economical... and particularly after 6 p.m. or all day Sunday. Placing your call station-to-station at these times makes it easy on your pocketbook. You can keep in personal touch with friends, relatives and business acquaintances anywhere at low, low cost.

So next time you make a long distance call just tell the operator you'll talk with anyone who answers. By doing that, you can actually make three calls for the price of two.

PROOF OF

RED FLANNEL UNDERWEAR DOES NOT KEEP THE WEARER WARMER THAN WHITE FLANNEL

Warmth depends on the quality of the wool used. Red dye does not improve the quality of the wool. 1 - "Popular Fallacies" - A.S.E. Ackermann. 2 - "Superstitions of Medicine and Surgery" - T. J. Pettigrew, F.R.S., P. 18.
