Most women will admit an extension telephone is wonderful anywhere in the house. But in the kitchen... that's where they really sing its praises.

No more hurried dashes in the midst of preparing dinner... no more leaving children near a hot stove while you run to another room... no more wasted steps or wasted time.

You'll find the cost low and the satisfaction enduring. Call our business office for full information on this kitchen convenience today.

PROOF OF

**SANTA CLAUS WAS NOT ORIGINALLY FAT  
AND HE HAD NO REINDEER**

In Holland "Saint Nicholas" was austere and dignified as became a bishop and a saint. He rode abroad on a donkey, and still does in portions of Europe. In America he developed into the fat, jolly fellow we all know and love. L. "Story of Santa Klaus" - Wm. S. Walsh.

**Pause For Reflection**

One of the paradoxes of this so called scientific age is that, while acknowledging that in handling forces we court disaster if we violate God's laws pertaining to them, we seem to think that we can violate God's laws pertaining to spiritual and moral matters with impunity.

We legalize the "right to strike" (which, in its essence, is simply legalized assault and destruction of other people's property), we develop great industries based on human voices, we utter blasphemous and obscenities on a prodigious scale—and seem to think that nothing on toward will happen as a result. How blind we are!

We apparently cannot see that our rising crime rate, our scandalous psychopathic hospitals are all the results of our defiance of God's spiritual and moral laws. And these are disasters that make even an explosion in an atomic laboratory a minor mishap by comparison.

In physics and chemistry we are truly in a scientific age but in the realm of moral and spiritual matters we are still in the age of what Paul labeled "science falsely so called."
