Asked, "What do you think of your electric egg washer and egg grader?" This Poultryman says: "I couldn't get along without them!"

Poultryman Charles Henninger, Millersburg R. D. sends between 50 and 60 crates of eggs to market week in and week out! Naturally then, efficient, economical, labor-saving poultry handling's mighty important to him. So, when he rates his egg washer and egg grader as equipment he couldn't do without, you know his opinion is based on dollar and cents experience! Mr. Henninger has found that it takes one man an average of three hours a day . . . a

saving he estimates at better than 200 man-hours a month, the equivalent of another hired hand! Let Reddy Kilowatt do your washing and grading. As in so many other jobs, he saves you work and money, builds profits and makes it possible for your farm to produce more—more profitably. So don't delay. Two things that make for SAFER driving!

The first and most important thing is you - the driver. The courtesy, care, and common sense you show count more than anything else. The second thing is the car itself. All cars are safer today. That's shown by the number of accidents in relation to the number of miles passenger cars are driven. The figure's down sharply. Chevrolet has always made safety a major consideration, introducing many such features as the all-steel top, into its field. And this '56 Chevrolet is the safest one ever built. Its lively new power means safer

passing. Its special Ball-Race steering—oversize brakes with Anti-Dive control—bring easier, surer driving. The Unisteel construction and safety door latches of its Fisher Body—the nailed-to-the-road stability that comes from advanced suspension and better balance - the sweeping panoramic windshield - all these things add to your safety. Seat belts with or without shoulder harness? Instrument panel padding? Of course, they're available at extra cost. As your Chevrolet dealer, we'll be glad to show you the many safety features of the '56 Chevrolet.
