**GET GOING FASTER
...FINISH SOONER**

WITH THE JOHN DEERE 3-POINT HITCH for "50," "60," and "70" Tractors, you hook up or change implements in far less time—get to work quicker—transport at faster speeds—have greater maneuverability in close-quarter work. This 3-point hitch gives you a flexible, free-trailing implement with a minimum of side-draft—you save fuel, do more uniform work.

The No. 800 is a heavy-duty, fully-adjustable hitch that can be installed by one man in about 15 minutes—detached in even less time—without heavy lifting. What's more, this hitch will save you money, for it forms the backbone for mounting a variety of matched "pick up and go" tools which are lower in cost than separate implements.
