Cadillac

At Home... Among Strangers !

You're going to get a wonderful thrill when you take the wheel of your first Cadillac and head out into the country—a long, long way from home.

We're not just talking about the car's wonderful performance and its extraordinary riding and handling ease—satisfying and inspiring though these are bound to be.

No, we're talking about something more.

We're talking about the *friendliness* you're going to encounter—how you'll be driving among people who seem to know something about you, and who are ready to trust and respect you as if they had known you for a long, long time.

This is true, of course, because Cadillac quality and goodness have made it the overwhelming preference of people of judgment and discrimination—and the whole world has come to know and understand this and to appreciate what it means.

Yes, your best foot is forward when it rests on the throttle of a 1956 Cadillac.

This great personal benefit is strictly a plus value when you take the title of the "car of cars." It comes in addition to the long-known Cadillac virtues: matchless beauty and luxury and comfort, and safety and long life.

Why not consider a Cadillac for your next car?

It is a logical choice—not only for quality and goodness and prestige—but for economy of ownership and operation as well.

We suggest that you come in soon and see for yourself. We'll be happy to give you a personal demonstration at the wheel . . . and to explain why this is such a wonderful time to make the move from every standpoint.
