POLITICAL POLITICAL POLITICAL

The Case For The Open Primary

A political party belongs to the PEOPLE who are its members.

They, AND THEY ALONE, have the right to decide its destiny.

They do this by their vote in the party's Primary Election, where, BY FREE CHOICE OF BALLOT, they select from those of their fellow-members who aspire to public office the candidates THEY wish to represent THEM in the General Election.

I firmly believe that the "open" Primary strengthens a political party, and in the long run, strives to promote the best interests of ALL citizens regardless of party.

Some do not agree.

Their idea of an ideal primary is one in which the organization's "slate" faces little or no opposition and the voters take little or no interest. Thus, by default, they are assured continued party control.

I offer my candidacy for the Senate as a CHALLENGE to these politicians who would ignore the historic right of free men to vote for the candidates of their choice.

I offer myself as a candidate QUALIFIED for the office. Those qualifications are a matter of PUBLIC RECORD.

If nominated and elected, I shall serve as I campaign—FREELY and INDEPENDENTLY — FEARLESSLY and WITHOUT FAVOR.

I offer my candidacy for the Republican nomination for State Senator for Lebanon and part of Lancaster Counties to those who share my faith in the future of our Party and in the inalienable right of its members to determine that future.

IT IS YOUR ENDORSEMENT I SEEK.

WILLIAM H. EGLI
REPUBLICAN CANDIDATE
STATE SENATOR

TIRES
FOR 62 YEARS

ADD UP THE COST of keeping your present car in top condition this year—new tires—engine work—paint—battery—muffler—brake linings, etc. Then talk to your Plymouth dealer about his modern financing plan; find out how it may actually cost you less money to drive home in a '56 Plymouth—the only all-new car in the low-price three.

"Let's trade! Your present car on a big, all-new, jet-styled Plymouth!"

You'll own the only low-price car that's really new. Plymouth is all new—design of the future today. But the other two low-price cars? Still about the same as last year and the year before!

You'll own the biggest car in Plymouth's field. You'd have to pay hundreds of dollars more to match Plymouth's length and roominess.

You'll own the only low-price car with positive, mechanical Push-Button Driving. Greatest advance in a decade, and only Plymouth has it in its field! Touch a button . . . and you're off. Fool-proof! At left, safely out of children's reach.

You'll own the top performer of the low-price three. Plymouth is fastest from 0 to 30 and 0 to

60 m.p.h., as independent tests show! Just try that new Hy-Fire V-8—with up to 200 horsepower!

So—bring your present car in now and see how much we'll allow you on a magnificent all-new '56 Plymouth. We'll surprise you! And be sure to ask about our modern financing plan—makes owning a Plymouth easier than ever!

PLYMOUTH costs less

From the day you buy it . . . through all the years you own it . . . you'll spend less on a Plymouth. That's one reason more Plymouths are used as taxis than all other cars combined.
