MAYTOWN

The sixth grade of the Maytown Elementary School had its annual visit to Harrisburg last Tuesday. The buses left school at 9:15 a. m. and arrived at Harrisburg State Museum at 10:15. Here they were met by a guide who accompanied the group through the museum. Two very enjoyable hours were spent here.

Just as the group had boarded the buses and were going to find a place to eat lunch, a guide from the Capitol came out and invited them to eat lunch in the cafeteria.

After lunch, Rep. Norman Wood and the receptionist, Miss Mary Glattacker, met them and escorted them to Governor Leader's office. He welcomed the group very

cordially and talked to the children for about ten minutes. The guide then took them to the House of Representatives and the Senate. They met Senator Ergood and Rep. Baker Rohrer.

After listening to some of the Tax Bills being introduced and voted upon, it was time for the visit to the State Airport.

Mr. French met the buses and escorted the group around the airport. He told them many interesting things concerning planes, the cost of a trip, landing of planes and answered many questions. He took them to the National Guard Hangar and showed the children the plane used by the governor. They also saw a plane land and take off.

It was now time to return home. Everyone agreed that it was a very interesting, and educational trip.

Included in the group were sixty-eight pupils, seven mothers and the teachers, Miss Sara Mischlich and Miss

Grace Henderson. Mrs. Clair Michael is a patient at the Columbia Hospital.

Miss Sue Drabenstadt was a medical patient at St. Joseph's Hospital. She has returned to Maple Farms Nursing Home at Akron.

IT NO LONGER MATTERS what for performance and smoother riding in the low-priced three? Chevrolet has laid the answer and the proof on the line!

First, Chevrolet won the Auto Decathlon over every car in its field, and over the higher priced cars that were tested, too. This rugged ten-way test (right, below) showed Chevrolet was the champ in handling ease, braking, acceleration, passing ability, smooth-

ness of ride and other driving qualities you want in a car.

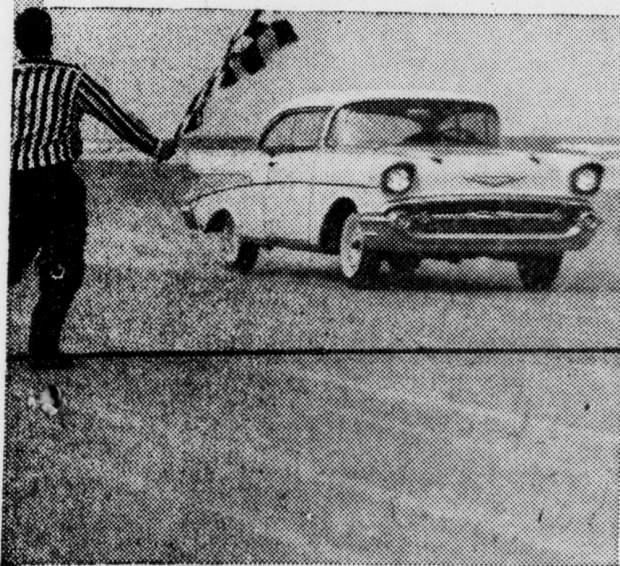

Then, Chevy won the Pure Oil Performance Trophy at Daytona (left, below) as "best performing U. S. automobile."

It's quite a feeling to know that you are driving a car that performs so well, responds so beautifully and is so finely built. You feel proud, of course. But you also enjoy a surer, smoother, steadier way of going, a keen

cat-quick response of power, and the easiest handling you've ever experienced behind a wheel. Just try this Chevrolet (V8 or Six) and see!

Chevy showed it's still the champ...
at Daytona... and in the Decathlon!
