In 1945, it cost **THIS MUCH**

Today, it costs **THIS MUCH**

You would pay almost twice as much today to buy or build your home as you paid 12 years ago. To put it another way, you can build only half a house in 1957 with the money it took for a whole house in 1945.

How about your fire insurance? Have you enough today - on house and contents - to meet any loss?
We are qualified to help you determine just what insurance, and how much, you need on your home and furnishings. Phone us right now - we'll be glad to discuss your insurance problems with you.
And remember, if you're not fully insured - it's not enough!
