Columbia Malleable Castings Division, a sub-  
sidiary of Grinnell Corp., is the largest specialized  
malleable plant east of Cleveland and one of the  
10 largest in the U. S.

Acquired by Grinnell in 1931, the firm has been ex-  
panded greatly since then and is rated one of the most  
modern, productive plants of  
its kind.

The plant employs about  
1,000, some 90 percent of  
them men, an increase of  
300 in the past few years. It  
has an annual payroll in ex-  
cess of \$4 million.

The plant manufactures  
malleable iron pipe fittings,  
pipe hangers, pipe super-  
er.

The annual average  
production of finished prod-  
ucts is 22,500 net tons. This  
amounts to 125 million  
pieces.

**THE BULLETIN**

**Has Something**  
**No Other Publication**  
**Can Give You**

**WHEN** you are spending your money for  
advertising you want to make sure that  
every dollar will go where it brings back maxi-  
mum returns.

Here is something for you to consider in this  
connection.

By advertising in The Bulletin you get something  
no other publication in this field can give you  
... a PLUS that assures greater value for your  
money. You get "following" that dates back to  
1901. You get reader acceptance that has been  
building up steadily for 42 years.

The Bulletin has been doing business in this  
field so long that it has become a tradition. To  
farmers, laborers, citizens and allied industries  
The Bulletin has become part of their way of life.  
It is the only medium that enables you to reach  
all of your prospects in one operation.

Add it all up and you will see that it is smart to  
tell your story in these columns regularly—dis-  
play or classified.

This is a real opportunity. The fact that it is be-  
fore you from week to week in no way dimin-  
ishes its importance to you, and in no way  
lessens the loss you sustain if you fail to take  
advantage of it.
