14 - 16 W. Main St.
Mount Joy

Children Learn to See.... See to Learn....

How well your child does in school is keyed directly to how well your child sees. Both eyes must work in perfect harmony whether the child is looking at a book, or at the chalk board.

A child with visual difficulties may fail or refuse to read. May become nervous, irritable and easily fatigued. Many reading difficulties and many visual problems that retard achievement can be prevented by proper visual care.

Your optometrist (O.D.) is a specialist in visual care. Have your child's vision examined every year — before they start school.

Dr. John H. Stauffer, O. D.

Pre-tested (by hard-playing boys and girls like yours) Poll-Parrot shoes give your child comfortable fit, lasting good looks and plenty of grow-room! See them today!
