**ELLIS W. WOLFE**  
1960 Democratic Senatorial Candidate 17th Penna. District  
413 East Main Street, Annaville, Pa.

With (33) years successful business experience, I feel the time has come when sound business thinking is badly needed in government, with a National corporate individual debt in this country of (870) billion dollars, with state after state financially embarrassed, who would deny the necessity for sound business thinking in government, by people representing you.

I note that our representative, Thomas Ehrgood, in the Senate for the past (4) years, states that he should be reelected on the strength of the fact that he knows his way around Capitol Hill. Yes, he knows his way around Capitol Hill to the extent that he voted against

- First — Against Fair Housing
  - Second—Against increased penalties for violation of safety regulations, protecting workers and citizens.
  - Third — Against Full Employment Act.
  - Fourth Against Occupational Disease — Would have provided compensation benefits caused by exposure to atomic radiation.
  - Fifth — Against Child Labor Bill—Would prescribe work and regulate working hours of minors.
  - Sixth — Against Minimum Wage Bill—One dollar per hour.
  - Seventh—Against requiring employers to furnish free under specified circumstances, protective devices, gloves, apparel, etc., to safeguard workers against injury.
  - Eighth — Voted against building of highways.
- Each and all of us have built our lives around certain high standards. Our parents taught us these high standards and principles. We in turn taught our children and they in turn are teaching their children, our grandchildren. Our Senator for the past (4) years has voted to destroy certain of these high standards. The destruction of the Sabbath Day, one of the pillars our forefathers built this great Nation upon. He has voted to sell automobiles on Sunday, to sell all commodities on Sunday, to sell alcoholic beverages in public places on the Sabbath Day. Is this the type of representation that you are interested in sending to Harrisburg? Or are you interested in representation that opposes any thing and all things that will lead to the liberalization of the Sabbath Day. Representation that will work for labor, for the farmer, for the common man, and not for only special interests. Representation that will work unceasingly for the protection of your savings and to curtail and reduce your taxes.

I would appreciate your every consideration.  
Candidate for State Senator
