fense at the local level must expand to keep pace with our national need to strengthen our resistance to aggression and

measure up to the President's expressed demand for maximum effectiveness in civil emergency operations."

A typical example of how Public Law 606 is helping our States

is that of North Carolina. Under its director, Major General Edward F. Griffin, the North Carolina Civil Defense Agency has

hired 21 professional and clerical people to strengthen the State's readiness for emergency action. Hitherto its staff of 11 persons

was hard-pressed to maintain a basic minimum of readiness for

ergency preparedness.

**THE STATE, which was allocated \$113,000 by OCDM, passed on \$53,040 of its allotment to local civil defense organizations for the hiring of an additional 39 persons. The bulk of these are clerical workers, whose shortage in the past often has hobbled the executive staff with routine but necessary tasks.
