## Chamber of Commerce To Publish New Folder About Mount Joy Area

An attractive, new information folder about Mount Joy will be issued by the Chamber of Commerce with the descriptive literature which will replace a similar folder issued more than 20 years ago. Planning issued more than 20 years ago and which, although still good, is well advanced and suitable in some details, is being considerably back dated and will be ready to be sent to the printer within two or three weeks.

The Chamber of Commerce will begin consideration of the project more than a year ago. It has surveyed the area, studied folders from other communities, had conferences with the Lancaster Planning Commission and with representatives of the Pennsylvania Department of Commerce.

Planned as an attractive piece of literature to be eye-catching, it will be directed toward people who have a serious interest in the community. Many facts connected with the community will be presented to give those who are seeking information a good, quick picture of the community and its facilities.

More than a dozen blocks of street resurfacing is being laid in Florin this week on the north side of Main street. Work began last week when grading, repairing and preliminaries were completed.

Township Supervisor Irwin Earhart said this week that it is the largest single black-topping program in Florin in many years.

Practically every street on the north side will have some at mid-week.

The macadam was spread from 2 to 2 1/2 inches deep, and then closed to traffic for a day or two to give the new material an opportunity to set.

Work began last week when grading, repairing and preliminaries were completed.

Tuesday the Heisey Brothers began final paving and were moving along rapidly.

Seven streets are involved in the program—Plum, Market, Angle, Orchard Road, Church, Water, and Hill.
