**Small gift, big thought**  
 A little heart full of fondness behind the small, outstretched hand is one of the smaller satisfactions that comes to a teacher. But watching little ones grow—inspiring, encouraging, giving direction, helping them become tomorrow's citizens—this is a teacher's larger satisfaction. This level of guidance, given to our youth by our teachers, is a measure of their service to community and country. Your electric company takes the occasion of American Education Week to point with pride to the excellence of teachers and teaching in our State. For this, we should all be sincerely thankful.
