## He could see time passing...

The folks who lived in the day of the hourglass had a psychological advantage. They could see time passing. And as each fine grain slipped through the neck of the glass, a man's conscience would whisper within him: less time left!

When we look at a clock its hands seem motionless. Is that why millions put off the important decisions that ought to be made right now?

Whatever its cause, procrastination is a disease. It lulls the senses into indolence. It wastes our energy on trivial pursuits, while important tasks remain undone. Especially it attacks the soul, tempting man to believe that there will be plenty of time later to tend to his spiritual needs.

But the cure is simple... and immediate. Just set the alarm clock and begin the New Year with worship in your Church. You'll soon be facing every important task with eagerness and courage and faith!

### THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
