Suggest Saving Water

A suggestion that patrons begin to be careful about the quantity of water they use was issued this week by the Mt. Joy Authority as it recognized the problems which come with lack of rainfall.

While there is not a crisis at this time, Authority President, B. Titus Rutt said that it would be wise for all water users to go slow on unnecessary water use.

Curtailed use at this time will help greatly to hold off a crisis and an acute shortage, if the weather continues hot and dry.

In the meantime, there remains the threat of a big fire, which would draw off the reserves and help pull down the available supply for normal consumption.

Police Irked At Bicycles Which Chase Fire Trucks

A stern warning to bicycle riders was issued Wednesday by Borough Police Officer Bruce Kline following a noontime episode which has become much, much too dangerous and frekuent.

Recently bike riders have been following the fire trucks on their daytime runs and have been causing a traffic hazard, both to themselves and to firemen who are answering calls to duty.

At noon Wednesday, when trucks raced to the old Cameron Mansion at Donegal Springs, more than a score of youngsters clogged Donegal Springs Road, creating an unnecessary danger.

Officer Kline returned to the borough and was an eye-witness to the problem which firemen have mentioned previously.

He was amazed and angered that the riders would ride in such a reckless and dangerous manner at a time when conditions would justify even more caution.

One fireman estimated that as many as 15 bicycles converged on the scene of the fire.

Most of Street Work Finished

With two exceptions, the borough of Mount Joy's summer street repair program has been completed.

Street Commissioner Simeon Horton said Wednesday that only a short section at the south end of Delta street and New Haven street remain unfinished.

The two lads had a lot of fun. So much fun, in fact, that the Eugene Wagner family, which lives nearby, entered the scene with another "lashing" camp and the project grew and grew with neighbors and motorists watching with considerable interest.

But, Tuesday night, four youngsters — about 10:30 or

Vandals Destroy Interesting Project

When demerits are handed out this week, four youngsters who walked into trouble Tuesday night will be in the front line and will deserve the full share of black marks which they get.

Many people of the community have admired in the past few weeks a "Pioneer village" which had been set up along the north side of East Donegal street in the 100 block.

It all started when Bill Sprecher, son of Mr. and Mrs. Art Sprecher, and Mitch Albert, son of Mr. and Mrs. George Albert started practicing "lashing", craft fostered by Boy Scouts using small poles and rope to build decorative fences, ladders, towers, monkey bridges, etc. etc.

11 p.m., came creeping out of the railroad cut and with knives cut the ropes and let the poles fall in heaps.

Many of the community have admired in the past few weeks by putting "two and two" together soon had the vandals in hand.

By seven o'clock Wednesday morning the quartet was back on the scene—but this time to clean up the mess they had made and to clear away the wreckage.

School To Make Investigation Of Tax Statement Errors

An investigation into the inaccuracies and irregularities in the recently issued tax bills was ordered Thursday of last week at the July meeting of the Donegal Union School Board.

The board took quick notice of the "inaccuracies" of the tax notices—which were issued about 10 days ago — and ordered that the policy-finance committee of the board begin an investigation to determine who was responsible.

A number of complaints were received by the schoolmen from the general public and a list was exhibited of more than 80 names which were not assessed per capita taxes.

The board members pointed out that the per capita tax es thus lost alone would approach near $1,000.

The board also took action to reaffirm its opposition to Act 561, which was passed at the last session of the state legislature. The law imposes an obligation to reorganize school districts into larger school population units.

Donegal board was among the first in the state to register its "opposition in principle."

In the meantime, machinery to meet the requirements of the law continue to operate and Joseph Carrol was named a representative of the board to join the Lancaster County School Board to study the reorganization on a local basis.

The board hired two staff members and accepted resignations from three others.

Resigning were Miss Mary Adams and Miss Sarah Miller both teachers, and Miss Miriam Greider, elementary secretary.

Miss Susan First, Harrisburg, was hired as girls physical education teacher at a salary of $4,500. Paul A. Gish, Mount Joy R2, was hired as custodian at the Donegal annex.

The board granted permission for the Donegal Boosters Club to use the high school athletic field for Sunday afternoon midget football games this fall.

Three elementary grade teachers still are needed to complete the staff for the 1962-'63 school year, Ralph Coleman, elementary school principal said.

Among the many places visited were: Florida, Phoenix, Arizona, Salt Lake City, Grand Canyon, Bryce Canyon, Lake Meade, Jackson Hole, Wyoming, Yellowstone park, Custer, Wyoming and Mount Rushmore.

Legion Junior Ball Team Wins Pennant

Another championship has come to town!

With a 7-2 victory over Elizabethtown, the Mount Joy Junior Legion team nailed the Southern Division pennant to the flag staff and the county playoffs.

Donegal board was among the first in the state to register its "opposition in principle."

Monday night at 9 o'clock, looks with confident toward Legion league officials will meet at the Mt. Joy Legion Post home to decide the playoff arrangements.

Victory Tuesday gave the hot Mount Joy club 10 wins against only two set backs for the summer league play and a bit of elbow room at the top of the southern section over Columbia's 8-3 record.

As things stand at midweek it looked much as if Ephrata may be the opposition, if Post 34 can be staved off in the stretch drive for the northern section pennant.

Tuesday was another in the tremendous string of mound victories this season for Colin Koser. He gave only one hit to E-town, and fanned an even dozen in the seventh inning game. The bingle was a third-base, line bunt which was beat out by Dale Albright.

His win set a new pitching record, backing off previous eight triumphs in a season. It was Colin's ninth for the season with the Legion team.

Behind him, Koser had only one error and the gang collected seven hits—Catcher Scott Trostle banged a double for 3 for 4 at the plate. R. Brown singled to help drive in the necessary runs.

An interesting sidelight on the season wins record shows Koser to be part of a Mount Joy legacy of pitching triumphs.

The eight win mark which he broke had been held at eight by: Don Myers, Mount Joy, 1952; Gary Smith, Ephrata, 1958; Bob Sprout, Eliza bethtown (Florin and Donegal high), 1959 and Rick Slabach, Adamstown, 1961.

On Sunday afternoon, Koser and Trostle will play in the Legion's Inter - District all-star game at Hershey with the opportunity to be selected to play in the annual East-West all-star game.

Expect Main St. Detour Monday

At midweek, it looked as if Mount Joy's Main street would be under detour by Monday!

Virtually all underground installations necessary are being "mopped up" Wednesday and Thursday and all seems to be in readiness for the beginning of construction work.

A couple of spots remained to be installed by the gas company and John Miller Mount Joy water works supervisor, said Wednesday morning that he plans only two more holes until the detour begins.

Both will be for fire plug adjustments.

Approximately 150 holes have been dug by the water works company to put in new, long-lasting copper service lines and fittings. Approximately 23 more will be done "uptown" west of Fairview streets, after the detour starts.

Plans call for traffic on Main street east of Barbara to be on a "one-way" basis throughout the construction period. The street will be fully closed between that point and the western borough line.

The Florin "annexation" matter is not parked on a shelf.

• • •

Most recent development is that the names of three persons have been handed the court as possible commissioners to form a study group and to recommend to the court what action shall be taken.

The action, of course, is to approve annexation of Florin by Mount Joy or the denial of a petition for annexation.

One of the best attended and most productive meetings of the Mount Joy Merchants committee in several years was held Monday night.

With a spirit of determination to "see it through" and to demonstrate to the public that they are not "going to the dogs" the merchants planned for the months during which Main street will be under construction.

They expect to build a "war chest" to fight a good economic fight, to stage some merchandising promotions and to let the people know that "we're still in business."

One businessman said that ready "we have been telling our customers that 'during this street program we're going to need your help and patronage even more than ever."

"Then," he continued, "we'll 'em now to come in the back way and even take them along out to show them."

"You'd be surprised how operative some of these people are," he added.

The merchants point out that there're wonderful parking places along the alleys on both the north and south sides of Main street, all with easier walking distances in many other shopping places.

The Bulletin editor would like to report and to say thank you" for the many nice things which have been said about the Bulletin's front-page editorial last week. People phoned, stopped in the office and stopped us on the street.

It seems that a lot of people seem to agree with us that there is too much talk—that all of Mount Joy is going down the drain. People seem to agree that there needs to be some work, some motion and some energy pumped into the situation.

Thanks again for the nice words!!

One man predicted more business sales this fall than last. Why? The dry weather has cut down the available feed, costs prices, makes feeding milk cows more expensive and less profitable. At least, was his line of thought.
