ABUNDANT LIFE

by ORAL ROBERTS

GOD'S STRENGTH CAN BE YOURS

A man and his small son were
working together in the garden
gathering stones.

"Here's one I can't lift, Daddy,"
the boy cried. "I've tried
with all my might."

The father stopped working,
looked down at his boy, smiled
and said, "Son, you didn't really
try with all your might, for
I was here as a part of your
might and you didn't ask me to
help you."

Jesus of Nazareth wants you
to count Him as a part of your
might. He knows your limitations,
and He stands beside you to
minister to your needs. He
stands beside you when the burdens
are too heavy to bear.

"Here, let Me help you," He
whispers, stretching forth His
nail-scarred hands.

He stands beside you at the
busy intersections of life, when
you are bewildered by the rush
and tumult of all that's going
on. He takes your hand in His
and leads you safely across. He
stands beside you when nerves
are frayed, or when you are dis-
couraged and lonely. He has a
way of calming frayed nerves, or
reassuring you and of putting you
back in order.

Christ's strength is placed at

your disposal to be utilized. If
you give up easily, if you are
prey to lingering fears, it is be-
cause you have not learned to
place your hand in His. You
have only to reach out in faith
and make His strength a part of
your strength.

It often happens that life
makes demands of you beyond
your own powers. Such demands
work for your good! Only that
which seems impossible is really
worth doing, for this is the
law of growth and progress. But
to succeed at these tasks, you
must learn how to utilize God's
help. For no one, of course, can
go beyond human limitation
without His help. Phillips
Brooks used to pray, "Lord, I
ask not for tasks equal to my
powers, but I pray for powers
equal to great tasks."

When you know that Christ's
strength is a part of your
strength, you need not be afraid
of any situation or task that may
confront you in the future.

God gives just the right
amount of strength for every
need. Saturate your life with it
and face undaunted the chal-
lenges of living each day victoriously.

Language Lab Opened at DHS

A language laboratory is
to be used this year for the
first time at Donegal High
School, according to John G.
Hart, principal.

The lab includes two tape
recording devices designed
to improve the speaking ability
of individual students by
allowing them to compare
their pronunciations of for-
eign phrases with the pro-
nunciations of recorded ex-
perts. They are located in
what was an empty room ad-
joining the school library.

Also to be used this year
for the first time is a special
reading machine on which a
student may select the num-
ber of words he wishes to
read per minute from any
selection of reading he desires.
The device compels him to
read at the set rate he has
chosen.

Future plans for the room
include the addition of special
teaching aids in other
fields, such as mathematics
and science.

Some of the cost of the
new equipment was offset by
a federal grant, Hart reported.

A man can't live a full and
satisfied life until he is pre-
pared to accept the unexpected
as an opportunity instead
of a possible source of trouble.

how's this for exploding the myth that cars have to be expensive to look it! Tempest '63

Maybe you can tell the difference between Pontiac's Tempest (especially that Le Mans) and the high-priced jobs. Besides having a 4 that acts like a V-8, Tempest sports a new 260-hp V-8* that acts like nothing you ever got your hands on before. And besides its beautiful balance, Tempest has Wide-Track this year. And self-adjusting brakes and a tachometer* and fetching style and all kinds of niceties that'll make your Tempest smoother and tougher. About all it doesn't have is a big fat price tag. Vive la difference! Pontiac Tempest
