**Skeptical at First...
Now Biggest Booster
of Flameless
Electric Home Heat**

Mrs. O. W. Anderson, 318 Grandview Boulevard, Bethlehem, read one of our recent newspaper advertisements featuring a number of Central Eastern Pennsylvania homes having flameless electric heat. She was so proud of her and her husband's decision, three years before, to install electric home heat, that she sat down and promptly wrote us the letter you see reproduced to the right, exactly as she wrote it.

What more can we say? ... except to see your own electrician or electrical contractor, today, or get a free heating cost estimate on your home from one of our own home heating specialists.

Dear sir,
After seeing the homes you have listed in the "Morning Call" with Electric heat, I feel I should write and tell you about ours.
I am enclosing a snap-shot so you can see it.
When we built it about 3 years ago we had Electric heat installed, and we can't say too much for our satisfaction and pleasure.
These cold days we have been just as cozy as can be and it is so clean, no film on knick-knacks or furniture.
The price is very cheap too, we were skeptical when we had it installed but find it is satisfactory in every way, with the year around plan for payments it is very convenient and we are more than pleased with it.
Yours truly
Mrs. O. W. Anderson
