A light texture in biscuits depends upon the proportion of liquid to flour, points out Louise Hamilton, Penn State extension nutrition specialist. Add the flour slowly to find the amount needed for the type of flour you are using. The correct proportion of liquid to flour gives a soft, easy to handle dough.

**FOOD PACKAGING COSTS**

Seven to ten per cent of the retail cost of food goes into packaging, says Harold Neigh, Penn State extension consumer economics specialist. For some items, the cost is slight. For others, the cost may be as much as the food itself. Packaging is necessary for protection of food. Also it helps to maintain food quality, provides convenient handling and storage, and gives pertinent information in buying.
