single ladder to success. Instead, you must climb many ladders before you reach the top.

To visualize what I mean, imagine a circular tower completely surrounded by ladders. But you can't see above the first rung on any ladder, for your limited age and youthful experience blindfold you beyond that point.

So take the ladder that is nearest at hand and climb upon the first rung. Then take your second step. If you then find you are on a step-ladder of only 3 steps, you may then need to climb over to an adjoining ladder that offers more rungs upward.

But if that second ladder stops with only 5 or 6 rungs, you then may climb over to an adjacent ladder which leads still higher.

Elbow Grease

Remember, there is no future in any job; For the future always lies in the worker who holds that job.

Jobs are just like rungs on a ladder, and the rungs never move. But you young people can progress upward by step-

BEFORE YOU DECIDE on any DIAMOND RING...

ping on those rungs as you strive toward higher altitudes.

For example, suppose you are a new recruit as dishwasher in a large restaurant. That is like the bottom rung on a stepladder.

You may climb up to be first class dishwasher, but that's as far as the actual "dishwashing ladder" reaches.

But if you have done a good job, including the use of plenty of elbow grease, your boss may then decide you can transfer to a rung on an adjacent ladder, such as learning to be a cook.

At the start, maybe you're only the 32nd asst. chef. But if you enjoy the culinary art, you can keep climbing till you become head chef, at \$1,000 or \$1,500 per month, for chefs draw big pay.

But if you are still ambitious after you reach the top rung of the "cooking ladder" then move across to the

"chain restaurant" ladder, and open up a chain of lunch rooms or hot dog (Turn to page 3)

BULLETIN:

If you want summer showers to help your lawn more—

feed it with **TURF BUILDER** right away

we have it—**\$2.95**
