From Du Pont Research!
New way to beat the Blister Problem

A new system that gives you greater protection against moisture blistering than traditional linseed oil paints:

If the old paint has blistered, remove old paint down to bare wood.

Prime with Du Pont Blister-Resistant Primer.

Cover with one or more coats of "Lucite" House Paint.

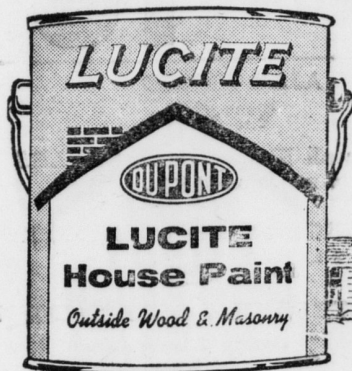

Dries in one hour. Clean hands and brushes with water.

Result—a lovely, rich, low-luster finish of far longer life than old-style linseed oil paints!

For previously painted surfaces in good condition: apply one or two coats of Lucite House Paint—no primer needed.

New Du Pont LUCITE House Paint

For Wood, Stucco or
Masonry—12 colors
