

by R. A. R.

Big news in the area this week has been the snow.

. . .

How deep was the snow and how deep the drifts have been topics of conversation among the adults while the youngsters have wondered from day to day "when will we go back to school."

. . .

But, remember, kids, -every day out of school means a day of vacation at Easter that you do not get! The school calendar provides that the spring vacation be whittled to take care of "snow days."

Although Mount Joy was practically paralyzed on Monday morning by Sunday night's snow storm, which continued for 24 hours and then drifted for another 12 hours, things came back to near normal in almost record time.

It seemed that people were able to dig out and to resume their normal duties a little more easily than on some other similar occasions.

Borough mail men told Postmaster Elmer Zerphey that by Tuesday morning there were enough sidewalks shoveled out to make their deliveries considerably easier. That, they appreciated.

. .

Rural mail carriers were unable to do much on Monnot be reached on Tuesday. . . .

There were a couple of His high school activities cases which necessitated have included: some special help from the Baseball 9-10-11; Soccer 11- activities have included: (From page 4)

Engineers Estimate Cost of Florin Project Will Be About \$820,000; Start in Summer

Attention to tentative engineering plans for installing and Mrs. Kenneth Theobald, Club 11-12; Tumbling Club sewers in the Florin area of Mount Joy was given Tuesday night by the Borough Authority at its January meeting, held in the Authority office on East Main street.

Engineering figures estimate that the project will cost approximately \$820,000 and the new system will serve about 390 of the 515 acres of territory in the Florin ward.

The engineer estimates now that if all factors work out as anticipated now, construction can begin in the summer and that about eight months to a year will be needed
