Over The Back Fence

MOST CATTLE FEEDERS have felt the results of the depressed prices for beef during the past year; the present outlook does not show any great relief from these lower prices. This means that we should make every effort to produce beef at a lower cost per pound; times are changing and the market demands for certain kinds of beef are changing. To stay in business the feeder must also make changes to try to produce a product that is in demand and one that he can realize some profits. We suggest the construction of some kind of a silo on more steer feeding farms in order to benefit from this cheaper source of feed nutrients. Corn silage is hard to beat in making cheaper gains.

HOME-OWNERS might find the next several months a very good time to get the lawn-mower sharpened and serviced. Many service men will appreciate the work at this slow time of the year and the owner will not be delayed by the spring rush. Most mowers need blades or knives sharpened annually in order to do a very good job.

Timely Tips for Women

Good To Know

Peanuts and peanut butter are valuable additions to standard family fare. Their high-quality protein, niacin and other B vitamins, minerals, and rich, flavorful taste make them good eating any time of the day.

Prepare your favorite dumpling mixture, stirring a dried herb, such as basil, parsley, or oregano, into the dry ingredients. Drop the dumpling batter into hot soup and simmer until the dumplings are fluffy-tender—about ten minutes. Gives a favorite soup a new flavor.

Guides For Using Color

Color can establish the mood of a room, create excitement, or invite rest. There is no one rule for the use of color, but some guides include: Try building a color scheme around an existing pattern in a fabric, wallpaper, floor covering, or picture. Consider the amount and position of natural and artificial light in a room. Notice the exposure of the room and use colors accordingly. Color repeated throughout a room can contribute to a sense of unity; too many colors, floor covering, or picture.

The Worry Clinic

Donald has a discouraged outlook concerning the future chances of earning a good living. He feels that the huge industrial giants have made it almost impossible for a poor man to compete. But please scrapbook this case and next week's follow-up.

Case N-433: Donald K., aged 20, is a college senior. "Dr. Crane," he asked during a forum discussion, "Is there any chance for a young fellow nowadays who has no money and doesn't plan to marry the boss's daughter?" "Aren't the billion dollar firms making it more impossible for the 'little fellow' to get ahead?"

Ceiling Unlimited

Despite the zooming industrial plants of America, their products still must be sold.

And that's where the salesman comes in.

He is still the key man in American commerce and industry, for without go-getter salesmen, business stagnates.

Indeed, salesmen are the badge and barometer of our "free enterprise" system. Where you find salesmen, you find a nation that is characterized by the creation of new products and a higher living standard.

In Socialism and Communism, there is stagnation. For those countries don't want salesmen.

So be more appreciative of salesmen. Millions of you widows, who are receiving monthly insurance checks, should really write a "Thank you" letter to the salesman who prodded your husband into being so thoughtful of your future financial care.

And our salesmen have a room will destroy unity. Use color to create effects, make rooms appear larger,

Chocolate Icing Takes Cake

Chocolate flavored icings seems to be everybody's favorite. There are very few cakes that will not take to chocolate frostings. Here are some easy recipes for chocolate icings to dress up your favorite cake.

CREAMY CHOCOLATE FROSTING

- ½ cup semi-sweet chocolate pieces
- 2 tablespoons honey
- 1 tablespoon water
- 1½ cups heavy cream

Combine chocolate pieces, honey and water in small saucepan and stir over low heat until well blended. Remove from heat. Cool till slightly thickened. Combine cream, coffee and salt and beat till thick. Fold in the semi-sweet mixtures till well blended. Fills and frosts two 8 or 9-inch cake layers. Chill frosted cake before serving.

SOUR CREAM VELVET FROSTING

1 6-oz. package (1 cup) semi-sweet chocolate pieces
½ cup sour cream
1 teaspoon vanilla
¼ teaspoon salt
2½ cups sifted confectioners' sugar
Melt chocolate pieces over hot (not boiling) water and stir till smooth. Remove from water. Blend in sour cream, vanilla and salt. Beat in sugar.

LAW

Let reverence for the law be breathed by every mother to the lisping babe that prattles on her lap; let it be taught in schools, seminaries and colleges; let it be written in primers, spelling books and almanacs; let it be preached from the pulpits and proclaimed in legislative halls and enforced in courts of justice.
