Lions Club Hears Plant Foreman

Lee Gardner, production foreman of the new National-Standard plant at the east edge of Mount Joy, was the speaker Tuesday night at the regular meeting of the Mount Joy Lions club, held at Hostetters.

He said that N-S basically is a wire industry, founded in 1906. There are now ten domestic plants and foreign operations in Canada, England, South Africa and France. There also are affiliates in West Germany, Luxembourg, Mexico and India. Gross sales in 1963 were more than \$3 million and the firm is now counted in a group of the 200 largest industries in the United States, the speaker said.

The Mount Joy plant, Gardner revealed, is expected to be in full production by June of 1965.

National-Standard, the production chief said, came to Mount Joy because of "markets and manpower pool."

Lloyd Derr presided as president and David Rosser was program chairman. Two birthdays were celebrated with the usual song, Rehearsal started for "Plain Betsy" and more of this will be released in the very near future with full committees, etc.

The next Lions Club meeting is designated as Past President's Night and this will include all the ladies.
