**SPORTING HILL P.T.A.**

March 16 is the date for the next meeting of the Sporting Hill Parent-Teachers Association, at 7:30 p. m. in the elementary school. Room visitation will be at 7 p.m.

Rev. Allon Dourte will be in charge of the invocation. Music will be provided by the Allon Dourte family.

Pastor Richard C. Jones will present a travelogue.

The meeting will be followed by refreshments and a social hour.

**Unexpected**

"I turned the way I signaled," said the lady, indignantly, after the crash.

"I know it" retorted the man. That's what fooled me".

**Timely Tips**

(From page 1)

ance to moisture than latex paints.

A latex flat finish paint is a good choice for walls in living areas where you may need to remove smudgy finger marks often. Finger marks are hard to remove from alkylid painted surfaces. It's a good idea to wait at least 3 weeks before trying to remove smudges from a new latex-coated wall or you may damage the finish. After several days, you can clean the smudge from alkylid painted surfaces.

Don't be in a hurry to paint a new plastered wall with alkylid paint. Wait until

**SEE WHAT'S NEW ON THE  
WORLD'S BEST  
SELLER**

NOW SHIFT  
ON-THE-GO  
AT THE FLIP  
OF A SWITCH

Come on in to our dealership now to see Multi-Power on the Massey-Ferguson 35—the world's best-selling tractor. This new transmission—the simplest, most practical shift on-the-go ever engineered—lets you gear down or speed up at the flip of a switch. Gives you split-second fingertip control over ground speed, without affecting PTO speed. Also gives you 12 different forward speeds—all in direct gear drive. And along with the Ferguson System and M-F's record-breaking 3-cylinder diesel engine, Multi-Power now puts more gear speeds, more guts, more get-up-and-go into the "world's best seller" than ever before. Come in and see the great MF 35 with Multi-Power today!

the plaster has cured thoroughly, usually about six months.

**Stumped About Soap**

All-water soaps are those made with special oils to resist combining with minerals in hard water. It's this reaction that cuts the lathering action and produces scum when ordinary soaps are used in hard water.

Super-fatted is a term applied to soaps to which lanolin, cold cream or some other extra fat or oil has been added. The addition of this extra fat neutralizes the slightly drying effect of soap on some skin. It does not lubricate the skin as face creams do. Super-fatted soaps leave dry or sensitive skin more pliable and eliminate that stretched feeling.

Medicated soap is advertised as helpful for skin conditions, such as acne. Some medicated soaps are essentially the same as deodorant soaps, they contain a bacteria destroying ingredient. This

**Laudlubber**

The new young sailor was overheard by the Naval Reserve officer to say, aboard ship: "I'm going downstairs now."

"Downstairs," the officer roared. "Sailor, on this ship we never use those landlubber terms. We say, 'I'm going below'. We never say front or back, it's fore and aft. The floor is the deck. Left is port and starboard is right. The next time I hear you using a landlubber term—I'll throw you out that little round window!"

can be helpful in preventing the spread of an infection, and may help to clear the infection itself. Other medicated soaps may contain such substances as sulphur or tar to dry up excessive oiliness or flake off dead skin.

**Good To Know Anytime**  
Beef cuts for pot roasting

include the arm or blade bone cut from the chuck or shoulder, rolled rump, English or Boston cut pot roast, and heel of round. Cross cut beef shanks and short ribs are good for the small family. Seasonings may be as little as salt and pepper for a pot roast, or you may use one or two of the many herbs.
