## Homes Can Be Winter Weary

Homes . . . like people . . . can look winter-weary, too.

By this time, slipcovers, curtains and other household washables deserve a fresh, new look. The best spring tonic for these is a session in the automatic washer, followed by starching, right in the washer itself.

Starching will revive fabrics, giving them a smooth, like-new feel and appearance.

According to the home economists of Faultless Starch Company, automatic washer starching is the easiest, most economical way to starch a group of washables. In addition, it permits the starch to penetrate the fabric uniformly.

To washer-starch, these are the instructions recommended and tested by Faultless laboratories.

Run your laundry through the full wash, rinse and spin cycles.

Meanwhile, prepare hot starch solution by stirring 1/2 cup dry starch into one cup of cool water, making a thin, smooth solution. Heat 2 qts.

of water to a rolling boil. Remove from heat and immediately add the starch solution to the boiling water, stirring continuously. Reset the washer to the last full rinse cycle. Fill with water and add the starch solution. Agitate briefly to mix, then add the clean, damp washables are easier to iron. Starch also helps prevent dirt from penetrating into fabrics, making them easier to get clean the next time.

### TOWN SHOCKED AT CRIME!

Everyone agreed it was a crime when they heard Mrs. Getrid was throwing out her old furniture simply because it was drab and dingy looking and suggested she buy some "Old Masters Liquid Wood" at Cassell & Graham's Paint Store and with little effort make it look like new.

Adv.
