Hang Up Glue Tubes

ADHESIVE container tubes can be stored conveniently and out of the way by following a simple suggestion.

Instead of using threaded pins which usually come with such containers, use inexpensive cup hooks as caps.

With their concave flanges, these hooks create a double seal which keeps air out of the tubes. They also enable the craftsman to hang the glue containers in a neat row above the work bench where they are within easy reach and are quickly identifiable.

The cup hooks also can be used to hang up other items, such as containers of wood putty and household cement.

The young set will love these smart-looking kerchiefs. Both are simple to crochet in a very short time with pattern No. 938.

Our new 1964 Needlework Book contains a fine selection of crochet, knit, embroidery, quilts, etc., and includes instructions for four designs and also entitling you to any pattern of your choice, free. Send 50c.

Send 25c plus 5c postage in coins for this pattern to MARTHA MADISON (care of this newspaper), Box 1490 New York 1, N.Y. Add 15c for first class mail.

REPAIR DAMAGED TREES

Strong winds with heavy ice on tree branches sometimes causes breaks and splitting. Trees having soft, brittle wood, such as soft maples, willows, and poplars may be hurt. Craig S. Oliver, extension horticulturist at Penna. State university suggests that broken branches be cut off and damaged areas

be treated. Wounds and cuts should be covered with "wound paint" to reduce decay. For more detailed information, see your county agent.

If a man compliments his wife ten times a day, is that enough?
