

Motorists in 1963 raced down the nation's highways to a new, all-time auto death record which for the first time exceeded 42,000 fatalities. This tragic toll topped the figure of nearly 40,000 persons killed in 1941 — a record high which stood for twenty years—and even surpassed the new record of 40,500 deaths established in 1962.

SOME MIS-STEAK HERE?

It doesn't take long for the children of a dedicated church family to learn what is what. Mary Sue, only five, has seen so many luscious cakes and steaming casseroles whisked from kitchen to car that she is suspicious of any special preparations. The other evening, coming in from play, she first saw the table was set for dinner and then that her mother was putting some extra-thick steaks into the broiler. She looked several times from table to steaks and said incredulously, "Are we going to eat those at home?" —Selected

Studies by The Travelers Insurance Companies show driver error and lack of judgment were responsible for 34,700 deaths and nearly 3,000,000 injuries on U. S. highways in 1963.
