

Buy only enough bacon for one week because aroma and flavor begin to fade after five to seven days of storage, says Harold Neigh, Penn State extension consumer economics specialist. Store bacon in its original wrapper in the coldest part of the refrigerator. For best flavor, don't freeze sliced bacon. If you must freeze it, freeze only a few pounds and don't keep it more than two months in the freezer.

Study is like the heaven's glorious sun.

Prayer Of The Week - - -

The prayer this week is by John S. Hoyland:
"Father, we thank Thee, this day, that having Thyself, we have full and joyful assurance: That the best is forever ahead, That the joy of the future is more than the joy of the past, That Thy presence shall teach us to grow, day by day, in love, in courage, in strength, Forever becoming more like to Thine own great pattern in Christ.

"We thank Thee, that having Thee, and being forever held fast in the grasp of Thy love, there can be, for us, no despairing failure. Though our work may perish, no darksome horror of oblivion, though our names be lost and forgotten. For in Thee, and with Thee, there is Life, Immortality, Triumph at last, and perfection of Joy, so that the feeblest and weakest and worst may be saved and be stalwart for Thee, forever. Amen."

VITAL STATISTICS

DEATHS

A son to Mr. and Mrs. Eugene Eisenbise, E-town
A son to Mr. and Mrs. William Cassel, Elizabethtown.

SAVE YOUR TOES

The whirling knife-edged blade of a rotary lawn mower is dangerous, warn Penn State extension safety specialists. He suggests choosing a mower that is shielded well down toward the ground and treating it as you would a naked buzz saw. Be careful and save your toes!
