## Mount Joy To 'Clean-Up Paint-Up'

World's Fair impressions—

It's big, its beautiful, it's wonderful — but you might not like it!

As of now, everything is fresh, new and attractive.

There are people, people people, people. — More people than you can imagine.

The flowers — and there are thousands, yes, millions, I expect, and so perfect they might be artificial.

There is every facility for the comfort and convenience of the fair visitors—but inevitably, there are more people than facilities.

Long lines form up at the most popular exhibits. Some move rapidly, others more slowly.

Ride the buses and other conveyances as much as possible. Let the guides tell you the story. Later visit the exhibits which sound most interesting to you.

Never saw so many people sitting around with their shoes off.

Johnny Miller, who carries Mount Joy's East Ward mail, is the only person we know who will leave the fair without being totally exhausted.

May 15th to May 30th is Clean-Up, Paint-Up, Fix-up time in Mount Joy!

Sponsored by the Mount Joy Chamber of Commerce, the last two weeks of this month have been designated as an appropriate time for the people of the community to make a special effort to "spruce up."

And—spring weather, inviting to outdoor work—has played directly into the hands of the Chamber of Commerce planners.

The weatherman has opened wide the door of opportunity to not only paint-up and fix-up but to clean-up and to do so many of the chores which accumulate outside during the long winter months.

Too, Memorial Day is just around the corner and the community is pointing toward that weekend celebration, which will bring many many visitors to the borough for the various activities. There will be many

old timers coming to Mount Joy as well as just plain interested people who will be here to take in the parade and the other holiday activities.

This summer, probably, there will be more guests in and through Mount Joy than any summer in a long long time.

Anyone who has relatives or friends living west of Altoona is likely to have company this summer as thousands upon thousands of people will be attracted to New York for the Fair. Many will be stopping — maybe looking at someone's spare bedroom.

The highways will be running full of travelers—many of whom will come through Mount Joy.

Already there have been a number of flower boxes appearing on Main street, as spring brings a return of the "green thumbs" and as the prideful citizenry wants to make his property a little more attractive.

### Wins C. of C. Poster Contest

## 'Of This and That'

by The Editor's Wife

As we stood in front of Grant's Tomb in New York City many years ago, a friend of ours standing nearby said, "They can't put Grant's Tomb on a penny postcard, can they?"

Of course he meant that it was impossible to capture and imprison the grandeur and majesty of that beautiful structure on a piece of cardboard three inches wide by five inches long!

We thought of these words as we stood at the foot of the Unisphere at the New York World's Fair last Saturday—"They can't put the Unisphere on a five-cent postage stamp, can they?"

Set in the midst of beautiful fountains, at the confluence of the main Avenues of the Fair, with colorful flags flying and plantings of pansies and tulips adding their gala touches, the Unisphere is a breath-taking sight!

It is a gigantic, open-frame-work globe of the world, perched in a seemingly precarious fashion on a small pedestal. Rightly it has been taken as the symbol of the Fair, for it dominates the entire Fairgrounds.

In doing so, it accomplishes quite a feat, for there are many outstanding structures

### Tribe Even; Three and Three

Donegal high's baseball stock sank to three wins against three losses on Tuesday as the Tribe bowed, 8 to 4, to Manheim Central.

The winners clubbed John Gohn and Epler for 13 hits, while the Indians tagged Lesies for only five. Grove had a double and R. Brown had two singles in three trips.

### 'Dutch Louie' Marker Fund Grows

About half way! That's the way the "Dutch Louie" fund is progressing after only a few days following an announcement last week that a small amount of money is needed for erecting a marker on the grave of the late Ludwig 'Dutch Louie' Blantz.

Mrs. Richard Ober, Mount Joy R1, who is accepting donations, said this week that \$25 has been received. About \$40 or \$45 is needed.

It is felt that there were many people in the community who knew Louis', and were benefactors of his ser-

vices at what always was a "far-below-normal" fee.

He is buried in the Mount Joy cemetery following his sudden death on April 3. He has no family—no relatives.

As a public service, The Bulletin lists the following physician, who may be reached for emergency service or by those who are unable to contact their family physician:

### To Open New Bank Windows

The services of these windows will include cashing checks, receiving checking and savings account deposits, Christmas and Vacation Club payments, coupon payments of loans and utility company payments.

Mrs. Judy Mellinger, an employee of the bank for six years, will serve as the teller.

## Study Joining Water Lines

A frequently discussed proposal for avoiding a possible water shortage in the Mount Joy system finally is getting action!

At the May meeting of the Borough Authority, in answer to a direct question by a Bulletin reporter, President B. Titus Rutt explained what steps are being taken to explore the possibility of "tying" together the Florin and Mount Joy water mains.

Rutt said that lines of the two water companies run parallel under Donegal Springs road, not many feet apart, thereby offering a possibility of rather easily joining the systems.

The Authority's engineers — Gannett, Fleming, Corddry and Carpenter of Harrisburg — already have ascertained from the Florin water company owners that there is a possibility of such an arrangement.

### Seventy-Five Plus

The annual Seventy-Five Plus banquet, sponsored by the Mount Joy Junior Chamber of Commerce and the Jaycees, will be held this year on Thursday, June 18.

The Florin owners said, Rutt reported, that a supply is available from their source, west of Mount Joy. The engineers said that it is physically possible to join the two systems.

Later, the Authority instructed its attorney, Ralph Barley of Lancaster to make contact with the owners of the Florin company and to
