Use Ashtrays As Fire Protection

Do you want to keep your home fire safe

Then, remember this, says the National Board of Fire Underwriters:

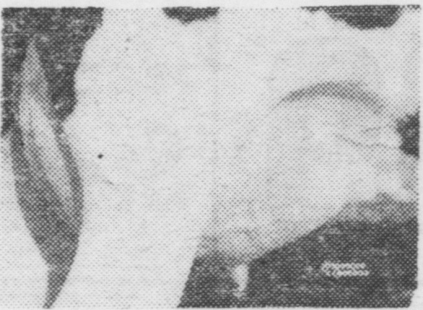

Ashtrays are a must if you have smokers in your house.

Buy large ashtrays and be sure they are made of metal or some other fire safe material.

See to it that there are plenty of them and that they are placed in every room where smokers go.

One additional thought: empty ashtrays often and be sure that all fire is extinguished before they are emptied.

After 8 p.m., some of the people I know are dozing or sound asleep half the time they are supposed to be looking at TV.

An Udder That Works!

This "Excellent" udder belongs to an SH59 General daughter that produced 16,190 lbs. milk and 722 lbs. fat in 361 days (2X-actual) as a 4-yr.-old. If you would like cows in your herd with udders like this one, call—
